Know Your Machine

Getting Started: Stitch Functions

Let us Learn Stitch Functions of Usha Machines in the tutorial

Functional **stitches** include a buttonhole maker, a zigzag **stitch**, or blind hemmer and are considered standard on most **machines**. Decorative **stitches**, also easy to access, are often pictured on the front of the **machine**. When engaged, the **stitches** create a pattern as you move the fabric through the **machine**

At the end of the video tutorial you will be able to do the attractive decorative stitches that are pictured on the front of the Machine

Getting Started: Advance Stitch Functions

This tutorial video will make you understand the *advanced sewing* needs.

At the end of the tutorial you will learn.

- How to sew a **Button hole** and **Button Stitch**.
- **Applique** designing on a cloth
- Learn to sew a **picot** edge in step by step.
- Adding an **interlock stitch** at the seams.
